Product Information

- Required Products: [12184](#)

Parkside is a forgotten old town - deserted, left to ruin, it's no longer even on the maps. In the midst of this decay sits a vintage Parkside Box Car, once used to haul freight from the big city. This set

comes in several parts including a separate interior and exterior, as well as props to detail your scenes. The Parkside Passenger Car is required as part of the preload, and the track from Parkside Passenger Car was used in the promo artwork.
