

Gasser Muscle Car

Product Name:	Gasser Muscle Car
Product ID:	78984
Published Artist(s):	DarkEdgeDesign
Created By:	N/A
Release Date:	2020-11-27

Product Information

- Required Products: *None*

The Gasser Muscle Car is what's commonly known as a "gasser" in the racing community, otherwise an old vehicle frame with a muscle car engine and suspension. Speaking of suspension this vehicle is

rigged by DarkEdge himself so it automatically responds in real time as actual vehicles do, plus the front and rear end can be lowered to provide a “Hot Rod”, “East LA” or “Low Rider” look. Doors, steering wheel and hood are articulating, and many of the attached parts can be turned on and off. This car can give you a lot of different variations. Gasser Muscle Car also comes with a Drag Racing set, complete with cement barriers, wall and light tree. Why have a “Gasser” if you don't have a drag strip?

Product Notes

Installation Packages

Below is a list of the installation package types provided by this product. The name of each package contains a [Package Qualifier](#), which is used as a key to indicate something about the contents of that package.

- 1 Core ¹⁾

[] = *Optional, depending on target application(s)*

Not all installation packages provide files that are displayed to the user within the interface of an application. The packages listed below, do. The application(s), and the location(s) within each application, are shown below.

Gasser Muscle Car (Core)
