

LE VILLAGE-BOOK STORE

Naming convention for the shutters:

All 28 shutters in this building are possible.

To understand the naming convention of each shutter in this set, please use the following picture:

Each shutter is named as follows:

Row (Top To Bottom)-Column (Left to Right)-Order.(1 to 4)

So as an example, the leftmost shutter of the window, in the center column of the top floor, will be named: TopCenter1.

Similarly, the rightmost shutter of the window in the right column of the middle floor will be named: MiddleRight4.

This tip should make it easier to select these shutters by name, when using your favorite application.

Thank you for purchasing this product.
