

DENTAL BLING

GOLD AND SILVER OVERLAYS FOR EACH TOOTH
COMPATIBLE WITH DENTAL PLAN 2 MATERIALS

ALSO INCLUDES 11 DESIGN CHOICES FOR THE
6 FRONT UPPER AND LOWER TEETH.

GENESIS 2

DRAAGONSTORM

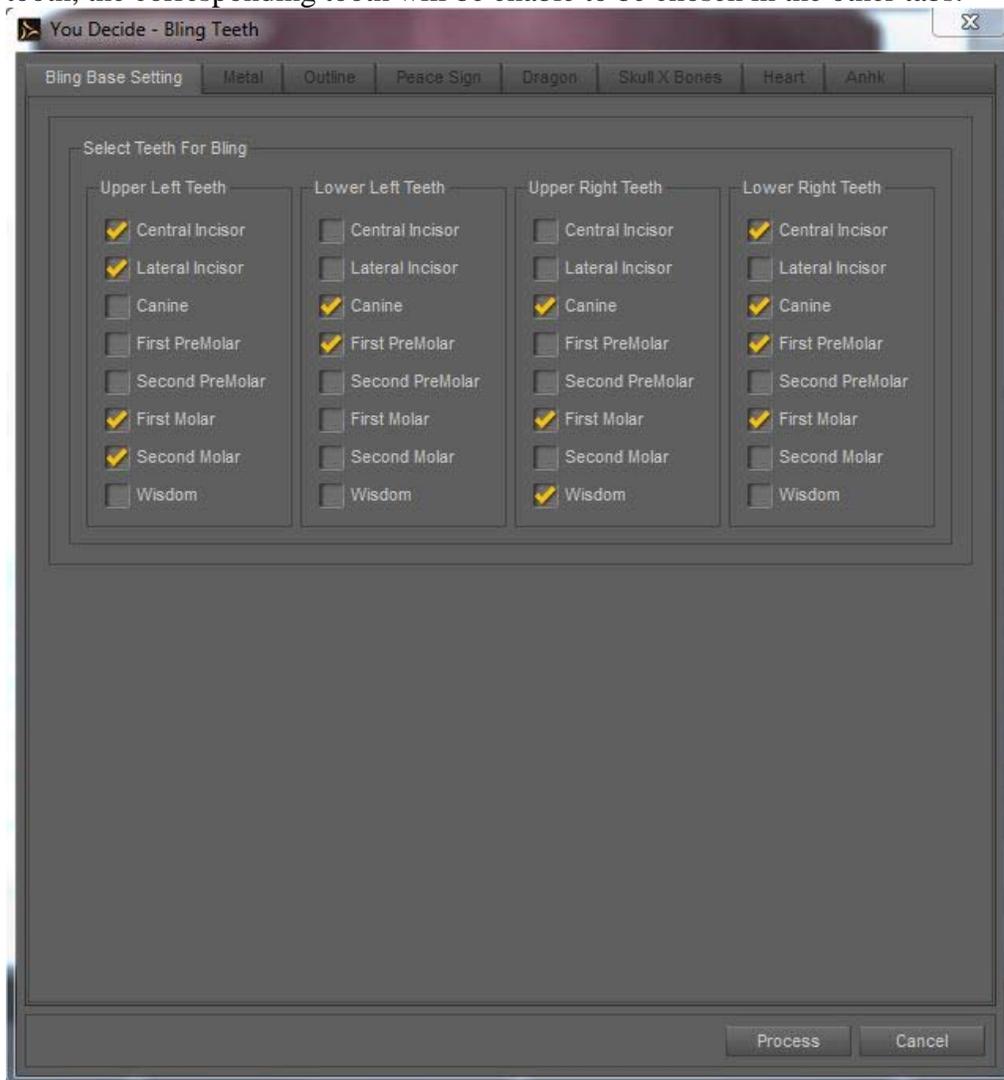

Add gold and silver teeth bling to any Genesis 2 Female or Male character. Use either the base teeth mats included, the material settings from Dental Plan2 (by Zev0 and DraagonStorm) or any other dental mat that uses the Base Female/Male UV for Genesis 2.

These overlays work best with the UberSurface shader.

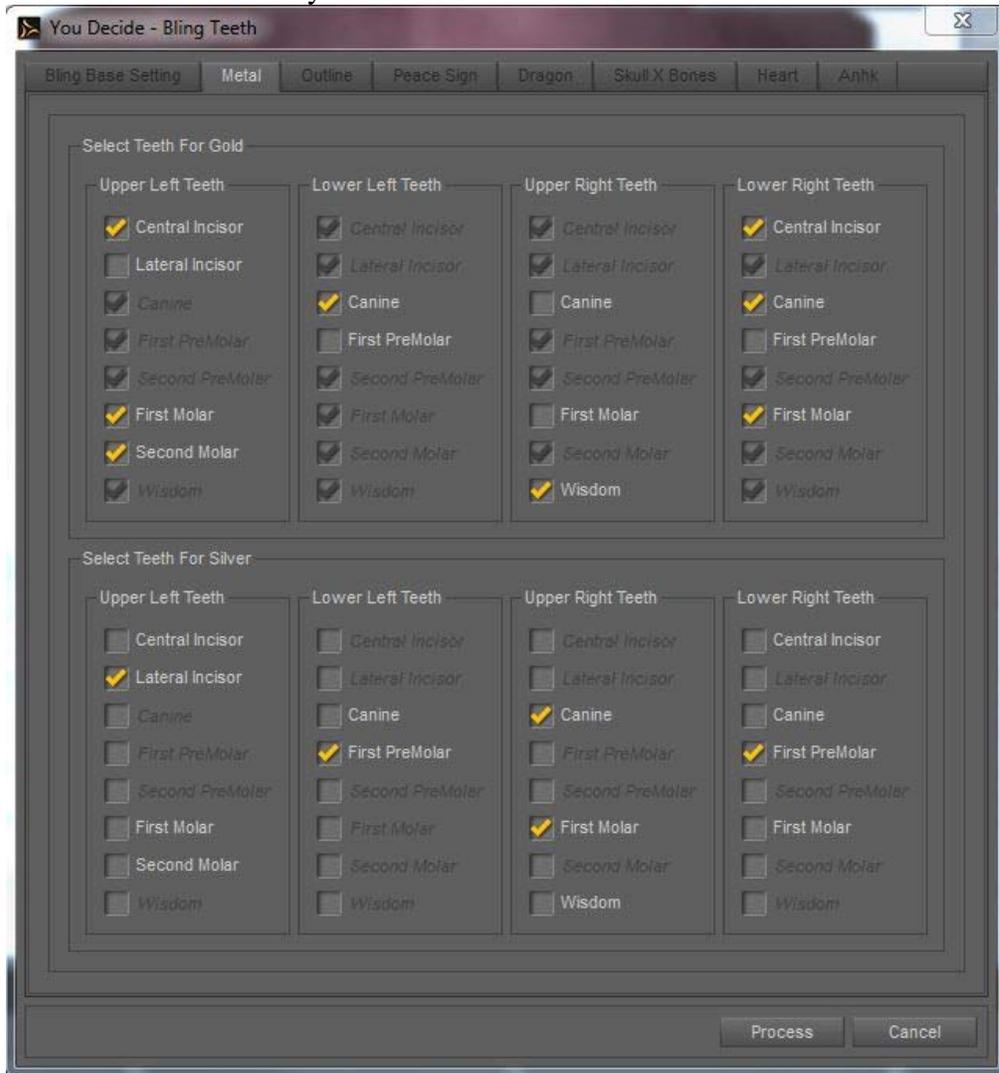

Instructions:

After selecting/creating your base teeth, you will double click on "!You Decide" in the library, "People/Genesis 2 Female/Materials/Dental Bling" for G2F, or "People/Genesis 2 Male/Materials/Dental Bling". A screen will pop up with the following tabs: Bling Base Settings: Metal: Outline: Peace Sign: Dragon: Skull X Bones: Heart: and Anhk

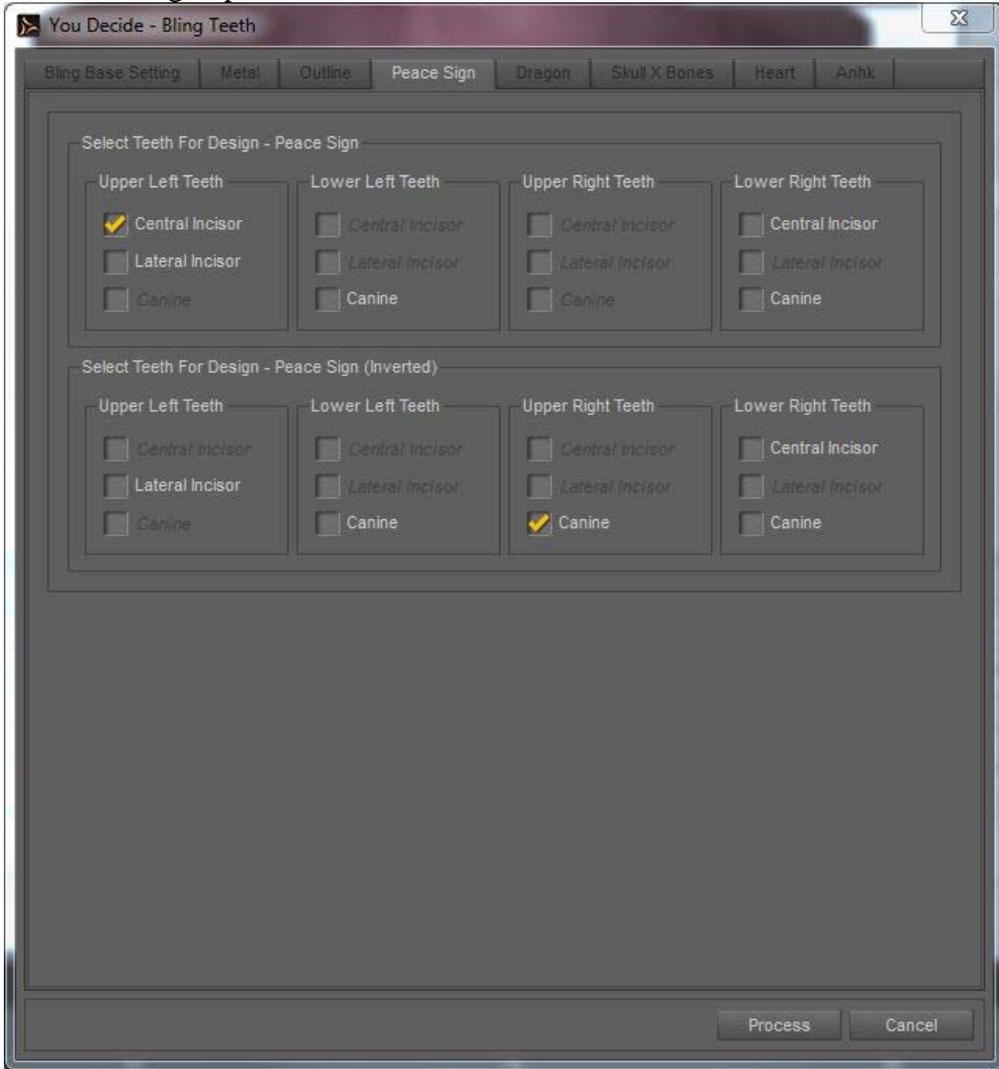

The first tab is where you will select which teeth you want to 'Bling'. As you select each tooth, the corresponding tooth will be enable to be chosen in the other tabs.

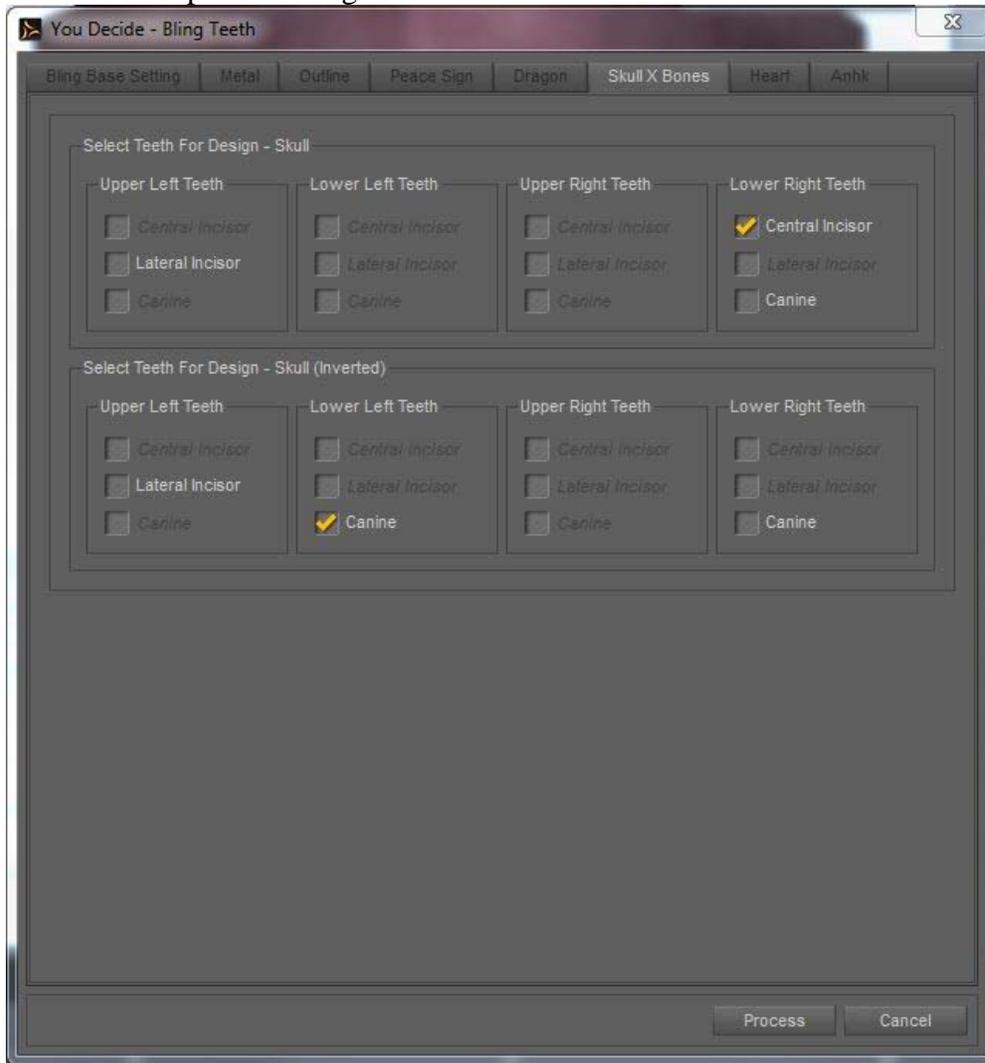

The Metal tab is where you will select Gold or Silver.

The rest of the tabs are to select any design you may want. The Outline is only one group to select, the others have the design or the invert of the design. When you choose a design all other design options for that tooth are disabled.

Another example of a design tab.

Thank you for purchasing Dental Bling

DraagonStorm
