Thank you for purchasing Rock Jewelry package for Genesis 3 and 8 Male!

There are ten items in the Rock - Tribal collection, four bracelets, three necklaces, two pendants and six rings.

All bracelets and rings are static props. The necklaces and the pendants are fully rigged. There are wearable presets for all items so they can be loaded up to any Genesis 3 or Genesis 8 male figure. The bracelets and the rings may need adjustments when you use them with a character morph. The necklaces support a variety of Genesis 3 and Genesis 8 male morphs. You may need to adjust the attached pendants if you dial in a character morph.

There are also many morphs that support adjustments and styling for the necklaces.

You may also unparent the Guitar or Tribal pendant from the necklace 01 and necklace 03 and parent your own pendant prop to that "link". In that way you can use the necklaces 01 or 03 as bases for your other pendants.
