

# Nautica Simulation Instructions

Preferred method: Timeline

Before you start the simulation:

- Click on the Simulation Settings tab and turn the Start Bones From Memorized Pose **OFF**
- On Frames To Simulate, replace the default Current Frame for **Animated (Use Timeline Play Range)**
- Open the Timeline, and replace the maximum frames from 31 to 41
- On Frame 1, load Genesis 8 Female
- Move to Frame 30 and pose her using your favourite pose, make sure the pose of your choice is dForce friendly.
- Go back to Frame 1 and load !NauticaALL

Blouse and Pants:

- Hide the Vest and the loops, along with the Sash Panel, keep the waist part of the Sash visible.
- Start the simulation
- Once finish, select the Pants, click on the Parameters tab, and under General/Simulation, make sure you turn the Freeze Simulation **On**
- Do the same with the blouse

Vest and Sash

- Un-hide the Vest and loops, and the Sash Panel as well.
- Start the simulation.

Note: If you are using a very long hair, make sure you have it hidden during the simulation process.
